PROFILE

I'm a software engineering undergraduate with a passion for developing innovative programs that expedite the efficiency and effectiveness of organizational success. A skilled leader who has the proven ability to motivate, educate and manage a team. Also a hardworking, flexible, enthusiastic and self-motivated individual with a friendly attitude. I believe that I have good interpersonal and communication skills, which makes me getting along and working with people easily.

WORK EXPERIENCE

- Software Engineer - Intern** 2024/12 - 2025/06
Bank Of Ceylon | Head Office, Colombo
- Work Study Officer in Coordination department** 2022
Rapid Creation | Panagoda, Homagama

EDUCATION

- BSc (Hons) in Information Technology specializing in Software Engineering Undergraduate - 4th year** 2022 - Present
Sri Lanka Institute of Information Technology (SLIIT)
- General Certificate of Education Advance Level** 2019 - 2021
Siri Piyrathana National Collage, Padukka
Passed Physical Science Stream with ICT B pass
- General Certificate of Education Ordinary Level** 2017 - 2018
Siri Piyrathana National Collage
4A's 3B's 2C's with Mathematics and ICT A passes

SPECIAL ACHIEVEMENTS

- Participated to Zonal Level ICT Quiz Competition** 2017
Homagama Education Zone

EXPERTISE

- UI/UX Design
- Frontend Development
- Database Administration
- Full-Stack Engineering
- DevOps Engineering
- Data Engineering & AI
- Backend Development
- Mobile App Development
- Embedded Systems

LANGUAGES

- JavaScript
- Python
- Java
- PHP
- Kotlin
- C++ & C

WEB DEV

- ReactJS
- SpringBoot
- Flask
- Tailwind
- ExpressJS
- Bootstrap

MOBILE DEV

- ReactNative
- Java
- Kotlin
- XML
- Flutter
- NativeWind

SOFT SKILLS

- Interpersonal
- Creative
- Problem solving
- Teamwork
- Collaborate
- Communication

DATABASES

- MongoDB
- MySQL
- PostgreSQL
- SQLite
- Supabase
- Firebase

TOOLS & TECHNOLOGIES

- Docker
- Azure
- Postman
- GitHub Actions
- Visual Studio Code
- IntelliJ IDEA
- PHPMyAdmin
- Figma
- Android Studio
- Grafana
- Eclipse
- Ollama

PROJECTS

BOC SMS Application - Internal Application

- Web-based platform for the Bank of Ceylon to send individual or bulk SMS via a role-based login system.
- Users can upload contacts (CSV), import/create templates, personalize messages, and schedule campaigns.
- Supports custom and standard SMS, with automatic duplicate removal and blocklist management.
- Includes a reporting dashboard showing real-time status: pending, scheduled, failed, sent.
- **ReactJS | NodeJS | Spring Boot | Java | MySQL**

Vedda Heritage - Vedda cultural preservation System (Research)

- The Vedda language is an indigenous language of Sri Lanka that has significant overlap with Sinhala. This advanced system aims to provide (my contribution):
- Multi-directional Translation: Vedda ↔ English, Vedda ↔ Sinhala, and Vedda to 40+ international languages
 - Speech Technology: Speech-to-text (STT) and text-to-speech (TTS) with Vedda language support
 - Intelligent Sinhala Bridge: Uses Sinhala as bridge language when direct Vedda translations unavailable
 - **ReactJS | Flask | Python | Whisper | MongoDB**

Automated Course Assessment Builder - Agentic AI

- This project generates a small course package with AI agents. It creates a syllabus, lesson content, a quiz, and a final report for a chosen topic.
- Builds a 5-module syllabus
 - Writes lesson content for each module
 - Generates quiz questions from the lessons
 - Compiles a final course report
 - **ReactJS | Node.js | Python | Ollama | Llama 3.2**

EatEase - Food Delivery System

- Microservices-based web app for online food ordering and delivery.
- Customers can browse menus, place orders, track them in real-time, pay via Stripe, and receive email/SMS notifications.
- Restaurants and delivery personnel manage orders and deliveries through dedicated modules.
- Built with Node.js, React.js, and MongoDB Atlas.
- Deployed using Docker and Kubernetes for scalability and flexibility.
- **ReactJS | NodeJS | Twilio | ExpressJS | MongoDB**

AgriPeace - Optimizer for Traditional Agricultural System

- Developed an advanced agricultural management system to support small-scale farmers in Sri Lanka.
- Crop Yield Prediction: Providing forecasts based on soil, weather, and historical data.
- Plant Disease Management: Image-based identification and treatment recommendations for plant diseases.
- Cost Management: A cost calculator for budgeting seeds, fertilizers, equipment, and labor, allowing for precise financial planning.
- **MERN | ReactJS | NodeJS | ExpressJS | MongoDB**

FitBalance360 - Wellness App

- Developed a comprehensive wellness app with a focus on fitness tracking, sleep monitoring, and relaxation techniques.
- Designed and implemented the Sleep and Relaxation feature, providing personalized relaxation recommendations based on daily stress assessments.
- Integrated stress rate questionnaires to track user stress levels and deliver customized relaxation exercises, including guided meditation and breathing techniques.
- **ReactNative | Firebase | NativeWind**

FreshRoute - Fruit Distributing System

- Simplifies fruit distribution between purchasers and farmers through a store-less platform.
- Ensures quality with predefined standards and trained controllers.
- Reduces costs and promotes sustainability with a store-less approach.
- Uses predictive analysis for efficient order fulfillment.
- Provides technical assistance to farmers to improve practices.
- **MERN | ReactJS | NodeJS | ExpressJS | MongoDB**

Advance XOX - Game

- Advanced version of Tic Tac Toe played on a 5x5 grid.
- Players take turns clicking on empty squares to place their symbol (X or O).
- Objective: Form a sequence of three symbols in a row, column, or diagonal.
- Game tracks and updates scores for each player after each round.
- Winner is determined based on the highest score.
- Saves and displays the highest score achieved across multiple games.
- **Android Studio | Kotlin | XML | SQLite | Gradle**

ToDoist - To do App

- Ultimate task management app.
- Allows users to easily add, modify, and delete tasks.
- Keeps all to-dos organized in one place.
- Provides task details, including titles and descriptions.
- Includes search functionality for quickly finding tasks.
- **Android Studio | Kotlin | XML | SQLite | Gradle**

EcoTech - Smart Waste Management System

- Adaptive System Design: The platform is flexible, accommodating various waste management models (e.g., weight-based charges or flat fees) to suit different urban environments.
- User-Friendly Accounts: Residents can manage their waste production, schedule special pickups, and make payments conveniently through a dedicated online platform.
- Data-Driven Insights: Generates analytical reports for waste management authorities, facilitating route optimization and improved service delivery.
- **MERN | ReactJS | NodeJS | ExpressJS | MongoDB | Mobile Responsive Web**

Fuel x Service - Fuel & Service Management System

- Managing vehicle servicing and gasoline station operations is increasingly challenging due to digital innovation.
- Introducing "The Gas Store," a modern Online Vehicle Service and Fuel Station Management System.
- Designed to meet the expanding demands of a fast-paced world.
- **Java | MySQL | PHPMyAdmin | XAMPP**

EXTRA CURRICULAR ACTIVITIES

President of Photographic Art Society

2019 - 2020

Siri Piyaarathana National Collage, Padukka

Vice President of Astronomical Association

2019 - 2020

Siri Piyaarathana National Collage, Padukka

Member of LEO Club of Padukka

2022 - 2024

District 306C2

SPORTS ACTIVITIES

School Karate Team

2013 - 2020

Siri Piyaarathana National Collage, Padukka

2013 1st / 2014 5th / 2020 sport meet 2nd place

Scouting

2015 - 2017

Siri Piyaarathana National Collage, Padukka

2017 Troop Leader

I hereby solemnly certify that all the details and information presented within this curriculum vitae are accurate, complete, and true to the best of my knowledge, without any intentional misrepresentation or omission.

Nadil Liyanage
